Embedded Systems Week, a federated conference including CASES, CODES+ISSS and EMSOFT, is a forum for research in all aspects of embedded computing. ESWeek will be held in Grenoble, October 11 to 16, 2009 and together with the three major conferences it includes also guest conferences, workshops and tutorials.

Four half-day free tutorials will be offered on Sunday October 11, 2009:

- Smart Cameras and Visual Sensor Networks
- Adaptability: the key for Future Embedded Systems
- Integrating System – and Application-Level techniques for Multimedia Power management
- Inside the Open Source Lego Mindstorms NXT

Advance registration for the three conference will be available at www.esweek.org starting **August 10, 2009** and closing on September 20, 2009.

The following workshops will be held in the same week and require a separate registration.

APRES – Workshop on Adaptive and Reconfigurable Embedded Systems	11 October 2009
PRANACOMP - Workshop on Probabilistic and Resilient Architectures for Nanoscale Computing	11 October 2009
WFCD08 - ArtistDesign Workshop on Foundations of Component Based Design	11 October 2009
CASA - Compiler Assisted SoC Assembly Workshop	11 October 2009
ESTIMEDIA – Embedded Systems for Real-time Multimedia	15- 16 October 2009
REPP- Reconciling Predictability with Performance	15- 16 October 2009
ESS – Embedded Systems Security	15 October 2009
IWSSPS - International Workshop on Software Support for Portable Storage	15 October 2009
WESE - Embedded Systems Education	15 October 2009
WCPS - Workshop on Cyber-Physical Systems: Closing The Loop	16 October 2009
SS - Software synthesis	16 October 2009
